

FREE Website Design

The design is FREE if taken with one of our hosting packages. All text and pictures should be supplied via email. We design the site around your company logo and colours. We provide a visual of how the website will look, which you can have some influence over.

Domain Name Registration Fees

If you already have a domain name we will need to transfer the name onto our servers. The name will be re-registered in your name so you will still own the domain, we just become admin on the account which allows us to pay all registration fees (included under the hosting amount) and set up our server for the webspace and email accounts.

Website Design

- 3 / 6 Page Design based on one of our Templates
 - home page – bit about yourself
 - services page – what your company offers
